Manager

Introducing IAA

A not-for-profit member association
working for the **benefit** of the **Internet**
and the **people** who **build** and **operate** it.

Internet
Association
of Australia

About our members

Voting and non-voting members can be:

Corporate [voting]

- For organisations
- Generally wishing to purchase services
- Many are ISPs, content providers, software and online services providers

Affiliate [non-voting]

- For like minded / not-for-profit or government organisations
- May wish to purchase services or just support a strong internet

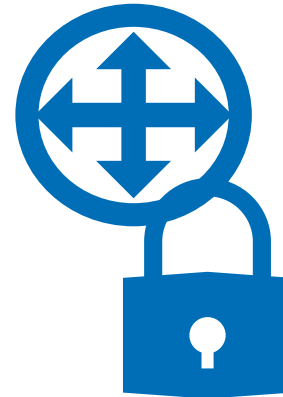

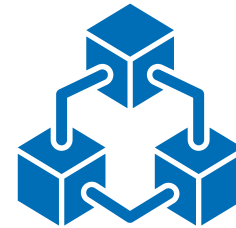

Professional [voting]

- For individuals committed to a strong internet
- Cannot purchase services

Infrastructure for the Public Good

- Five root DNS services
- Registry operators
- Time services (NTP)
- Open source content mirrors
- Shared content caches
- Routing Security - RPKI

OUR COMMITMENT TO MEMBERS

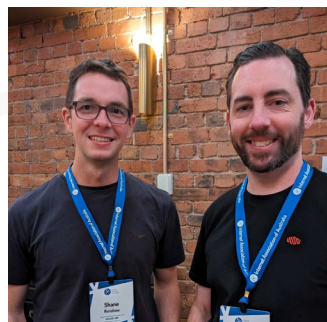

- IAA **events** are a **key part** of our **industry development** mission
- **Members receive free entry** to IAA's various online and in-person events throughout the year.
- These events are a **mix of networking and educational** opportunities both in-person and online.
- Our online **seminars** are open to all, feature industry speakers and are an excellent opportunity **for professional development.**

END OF YEAR EVENTS

IAASystems

IAASYSTERS OVERVIEW

- The IAASystems program supports women in the internet industry.
- The program offers a one-day workshop that provides expert career advice and supports career advancement.
- Systems then attend a technical conference where they will receive in-depth training and networking opportunities.

HOW DOES THIS HAPPEN?

External sponsors, who may send up to 2 additional attendees

IAA sponsorship and organisation

Industry recognition of the supporters and event

High calibre candidates via application process and speakers
